Hotel Revenue Management & Reservations Partner for Laos, India, Nepal, Malaysia and Vietnam
REVENUE. REPUTATION. RESULTS.

Who We Are

CRS Central is a specialist **hotel revenue management and reservations partner** for independent hotels, resorts and villa properties. Operated by CRS Chauhan Private Limited, we bring five-star commercial discipline to properties that have never had a dedicated revenue team of their own. Today we support hotels across Laos, India, Nepal, Malaysia and Vietnam, and through StayCRS, our hotel technology brand, we also offer a connected PMS, Channel Manager and Booking Engine.

Our senior leadership includes former General Managers of five-star hotels, with careers spanning brands such as Frasers Hospitality, Accor (MGallery), Le Méridien, The Oberoi Group, Taj Hotels, ITC Hotels and The Lalit, across India, Maldives, Thailand and Africa. That is why our strategies are **data-driven and operationally realistic**: we have run the hotels we advise on.

The Revenue Gap Independent Hotels Face

Large hotel chains do not earn more simply because they have more rooms. They earn more because dedicated revenue teams work every day to sell **the right room, at the right price, to the right guest, through the right channel**.

Independent hotels rarely have that expertise in-house, and most need two or more people just to manage pricing, OTA channels, reservations and guest communication. CRS Central closes the gap: we plug into your operation and act as your extended revenue team from day one, without recruitment, training or staff turnover.

How We Work

01

Free Revenue Audit

A 20–30 minute review of your pricing, OTA performance, competitor set and distribution.

02

Plug Into Your Systems

We work inside your existing PMS and channel manager. No change of systems required.

03

Manage Every Day

Rates, inventory, promotions and daily suggested walk-in rates sent to your team.

04

Report Transparently

Clear, regular performance reporting so you always know where revenue stands.

Built for Your Market

For Hotels in India

Demand in India moves with festivals, wedding seasons, corporate travel and a fast-growing domestic leisure market. We align rate strategy to these cycles and strengthen your position on MakeMyTrip, Goibibo, Booking.com, Agoda and Expedia, while growing direct bookings through your website, phone and WhatsApp enquiries.

For Hotels in Laos, Nepal, Malaysia and Vietnam

In Laos, we serve Vientiane's business and diplomatic market and Luang Prabang's heritage leisure market, where many independent hotels still price reactively. Across Nepal, Malaysia and Vietnam we apply the same hands-on approach: a clear pricing structure, stronger OTA performance and more direct bookings, backed by in-person property visits in Laos, India and Nepal.
